Claiming for personal injury

Accidents happen; it's an unfortunate fact of life. Mostly we just dust ourselves down and get on with things.

What if you're unlucky enough to be involved in a serious accident? Compensation is important; but it's equally important for you to have access to the specialist support you need to speed up your recovery.

That's why you can also count on the leading medical experts we work closely with to provide you with the best possible help from the outset.

We have years of experience in recovering compensation in complex personal injury cases.

Whilst we understand that no amount of money can compensate you for psychological or physical pain, we can help you achieve the financial security you require to move on.

Barcan+Kirby are members of the Spinal Injury Association and Headway. We also support the Brian Injury Group (BIG) and all our personal injury specialists are accredited by the Association of Personal Injury Lawyers.

Helping you recover

An injury can have long lasting consequences, so it's important that you're awarded the compensation you're entitled to. You can claim compensation for losses you've already incurred, as well as the help you are likely to need in the future.

To help you get back on your feet quickly, we'll act as your advocate whilst we're working on your claim. This may involve you seeing a specialist, or securing interim payments from the other party so you can access rehabilitative medical treatment.

Our personal injury expertise include:

- + Amputation
- + Brain + head injury
- + Car + road traffic accidents
- + Cycling accidents
- + Fatal injuries
- + Psychiatric injuries
- + Spinal injuries
- + Workplace accidents
